### 9 How to Update Your Resume

The key to creating an impressive resume is to put yourself in the reader's shoes. Often they are looking at a large number and only briefly review each one before later deciding to look more closely. Most go in the bin.

**Yours must stand out from the rest.**

Ensure your resume:

- Meets the employers requirements
- Is easy to read
- Well set out
- Concise - 3 pages or less
- Font 11 to 12 - Times new roman Arial Calibri

Be confident your resume is the best possible impression and representation of you.

If someone else prepares your resume and you are not entirely satisfied then by all means change it.

Rearrange your resume to highlight employer requirements-as listed in the job advertisement-BY:

- ❖ Modifying your objective
- ❖ Including all your skills/attributes/duties **relevant** to the position applied for-placing those at the top of your lists.

- ❖ Re arranging your headings-Employment history/Qualifications/etc.  
Focus on your strongest heading-according to the position applied for.

## **Resume headings**

You may **for example** have three or more resumes:

1. Highlights: Retail-objective/skills/duties/qualifications/experience.
2. Highlights: Cleaning-objective/skills/duties/qualifications /experience.
3. Highlights: Reception-objective/skills/duties/qualification/experience.

For this you will require an electronic copy of your resume (s)

### **Resume headings:**

- ❖ Name- address- contact options.
- ❖ Objective.
- ❖ Employment history.
- ❖ Education & Qualifications.
- ❖ Licences.
- ❖ Work skills.
- ❖ Personal attributes.
- ❖ Special interests.
- ❖ Referees.
